We love the summer house, but please stop telling us how long we have the table for, we know how long when we book, it just puts an added pressure to the evening unnecessarily. This adjustment would make all the difference. The bar area is very narrow, if you are expanding please consider this.

The Summer House by Hannah McKinnon Goodreads

The Summer House was my first Hannah McKinnon book, and I think it's safe to say it will not be my last. It was filled with love, heartbreak, plenty of drama, and a real family. I always love books that deal with real life situations instead of perfect cookie cutter families with no issues whatsoever. The characters were unique and I found myself relating to each of them in one way or another.
